OceanaGold Corporation

Notes to the Condensed Interim Consolidated Financial Statements

For the Three and Six Months ended June 30, 2025 and 2024

(Expressed in millions of United States dollars, unless otherwise stated - unaudited)

1 NATURE OF OPERATIONS

OceanaGold Corporation (the "Company" or "OceanaGold") is domiciled in British Columbia, Canada and the registered address of the Company is Suite 1020, 400 Burrard Street, Vancouver, British Columbia, V6C 3A6, Canada. The Company's common shares trade under the symbol 'OGC' on the Toronto Stock Exchange ("TSX") in Canada and under the symbol 'OCANF' on the OTCQX market in the United States.

The Company is engaged in the exploration, development and operation of gold and gold/copper mines. OceanaGold operates four operating mines: the wholly-owned Haile Gold Mine in the United States of America; the wholly-owned Macraes and Waihi operations in New Zealand; and the 80%-owned Didipio Mine in the Philippines.

The unaudited condensed interim consolidated financial statements were approved by the Board of Directors on August 6, 2025.

2 BASIS OF PREPARATION

These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board ("IFRS Accounting Standards"), as applicable to the preparation of interim condensed consolidated financial statements including IAS 34. Accordingly, certain disclosures included in the annual financial statements prepared in accordance with IFRS Accounting Standards have been condensed or omitted. These unaudited condensed interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2024.

3 ACCOUNTING POLICIES

The accounting policies applied in the preparation of these unaudited condensed interim consolidated financial statements are consistent with those applied and disclosed in the Company's audited consolidated financial statements for the year ended December 31, 2024. The Company's interim results are not necessarily indicative of its results for a full year.

New IFRS accounting standards and pronouncements - not yet adopted

Amendments to IFRS 9: Financial Instruments and IFRS 7: Financial Instruments: Disclosures

In May 2024, the IASB issued amendments to update classification and measurement requirements in IFRS 9: Financial Instruments, and related disclosure requirements in IFRS 7: Financial Instruments: Disclosures. The IASB clarified the recognition and derecognition date of certain financial assets and liabilities, and amended the requirements related to settling financial liabilities using an electronic payment system. It also clarified how to assess the contractual cash flow characteristics of financial assets in determining whether they meet the solely payments of principal and interest criterion, including financial assets that have environmental, social and corporate governance (ESG)-linked features and other similar contingent features. The IASB added disclosure requirements for financial instruments with contingent features that do not relate directly to basic lending risks and costs, and amended disclosures relating to equity instruments designated at fair value through other comprehensive income.

The amendments are effective for annual periods beginning on or after January 1, 2026 with early application permitted. The Company is currently assessing the effect of these amendments on our financial statements.

IFRS 18: Presentation and Disclosure in Financial Statements

In April 2024, the IASB issued IFRS 18: Presentation and Disclosure of Financial Statements ("IFRS 18"), which replaces IAS 1: Presentation of Financial Statements. IFRS 18 introduces a specified structure for the income statement by requiring income and expenses to be presented into the three defined categories of operating, investing and financing, and by specifying certain defined totals and subtotals. Where company-specific measures related to the income statement are provided, IFRS 18 requires companies to disclose explanations around these measures, which are referred to as management-defined performance measures. IFRS 18 also provides additional guidance on principles of aggregation and disaggregation which apply to the primary financial statements and the notes. IFRS 18 will not affect the recognition and measurement of items in the financial statements, nor will it affect which items are classified in other comprehensive income and how these items are classified.

The standard is effective for reporting periods beginning on or after January 1, 2027, including for interim financial statements. Retrospective application is required and early application is permitted. The Company is currently assessing the effect of this new standard to its financial statements.

9 SHARE CAPITAL

Authorized capital

The Company is authorized to issue an unlimited number of common shares with no par value.

Share Consolidation

On June 23, 2025, a share consolidation was completed on the basis of one post-consolidation common share for every 3 pre-consolidation common shares. The consolidation reduced the number of common shares issued and outstanding from 693,379,818 common shares to 231,126,566 common shares. The common shares commenced trading on the Toronto Stock Exchange (the "TSX") on a post-consolidation basis on the opening of trading on June 23, 2025. The number of shares issuable under the Company's stock-based compensation plans were proportionately adjusted upon completion of the consolidation. All information relating to earnings per share, issued and outstanding common shares, share rights, deferred units, and per share amounts in these financial statements have been adjusted retrospectively to reflect the share consolidation.

Dividends

During the quarter ended June 30, 2025, the Company declared and paid a dividend of \$0.03 per common share and paid a declared dividend of \$0.03 per common share from the quarter ended March 31, 2025, totaling \$14.0 million to equity holders of the Company (quarter ended June 30, 2024: paid a dividend of \$0.03 per common share totaling \$7.0 million).

On August 6, 2025, OceanaGold declared a dividend of \$0.03 per common share.

Share buyback

In July 2025, the Company received approval from the TSX to buyback up to 23 million common shares, pursuant to a Normal Course Issuer Bid ("NCIB") in the open market through the facilities of the TSX or alternative Canadian trading systems over the next 12 months. During the six months ended June 30, 2025, the Company repurchased and cancelled 3,928,700 common shares for consideration of \$40.6 million.

10 STOCK-BASED COMPENSATION

Performance share rights plan

The following table summarizes the outstanding rights granted under the performance share rights plan as at June 30, 2025 and December 31, 2024 and the changes during the periods then ended:

	June 30 2025	December 31 2024
	Units	Units
At January 1	5,699,442	5,641,150
Granted	1,613,031	2,704,175
Forfeited	(228,881)	(687,465)
Exercised	(1,127,253)	(1,958,418)
At period end	5,956,339	5,699,442
Exercisable at period end	-	-

The performance share rights outstanding at June 30, 2025 had a weighted average remaining life of 1.7 years with no exercise price.

Performance share rights granted to designated participants may from time to time vest when the Company meets target milestones for the applicable performance period, in accordance with the vesting schedule established at the time of grant by the Board. There are two components to each performance share right: a performance condition based on the Company's share price performance relative to peers ("TSR") and a service condition. The performance condition weighting varies according to the designated participants' job levels with vesting up to 200% of target for Executives. Upon vesting, the performance share rights are payable partly in shares and partly in cash in accordance with the plan. The Board has further discretion should they choose to exercise it.

OceanaGold Corporation

Notes to the Condensed Interim Consolidated Financial Statements

For the Three and Six Months ended June 30, 2025 and 2024

(Expressed in millions of United States dollars, unless otherwise stated - unaudited)

In 2025, the 2022 performance rights vested at 156%. Settlement was partly in shares and partly in cash.

At June 30, 2025, the fair value of the cash settled portion of the outstanding unvested performance rights and corresponding liability of \$16.6 million (December 31, 2024: \$17.0 million) is recorded within employee benefits.

Deferred Unit Plan ("DUP")

The following table summarizes the outstanding deferred units granted under the deferred unit plan as at June 30, 2025 and December 31, 2024 and the changes during the periods then ended:

	June 30 2025	December 31 2024
	Units	Units
At January 1	365,768	354,364
Granted	42,927	80,011
Exercised	–	(68,607)
At period end	408,695	365,768
Exercisable at period end	–	–

The fair value of the units granted under the DUP is calculated as the estimated future cash flow and it is remeasured at each reporting date and at the date of settlement. Any changes in fair value are recognized in the Condensed Interim Consolidated Statements of Income with a corresponding increase or decrease in liability. At June 30, 2025, the fair value of the units and corresponding liability was \$5.8 million (December 31, 2024: \$3.0 million) at a share price of \$14.12 (CAD\$19.22).

11 NON-CONTROLLING INTEREST

On May 13, 2024, OGP, a wholly owned subsidiary of the Company, completed a secondary offering and public listing (the "Offering") of 20% of the outstanding common shares of OGP on the Philippines Stock Exchange ("PSE") for net proceeds of \$95.1 million (gross proceeds of \$106.0 million less listing costs of \$10.9 million). OGP holds the Company's interest in the Didipio Mine and, pursuant to the terms of the renewed FTA, was required to list at least 10% of its common shares on the PSE. Immediately prior to the Offering, the carrying amount of the net assets of OGP was \$556.1 million, resulting in the recognition of a non-controlling interest ("NCI") of \$111.2 million and offsetting decrease in the equity attributable to the shareholders of the Company.

For the six months ended June 30, 2025, there was \$5.0 million of net profit and \$8.0 million of dividends paid attributed to the NCI resulting in a closing NCI balance of \$103.5 million at June 30, 2025.

The following is the summarized balance sheet and NCI of OGP as at June 30, 2025 and December 31, 2024:

(Expressed in millions of United States dollars, unless otherwise stated - unaudited)

All taxes and fees paid to the Philippines Government, including corporate income tax and indirect taxes such as excise, local business, property and withholding taxes as well as amounts accrued under the free-carried interest, are deducted from the Government's 60% share of Net Revenue to arrive at any Additional Government Share payable.

The Additional Government Share accrued for the period ended June 30, 2025 of \$17.7 million (June 30, 2024: Nil) is recorded within trade and other payables. The Company made an Additional Government Share payment of \$8.1 million in April 2025 related to 2024 amounts accrued at December 31, 2024.

14 BLACKWATER PROJECT SALE

On June 24, 2024, OceanaGold completed the sale of the Company's interest in the Blackwater project in New Zealand, for cash consideration of \$30.0 million. As a result of the sale, a pre-tax \$17.6 million gain was recognized during the three and six months ended June 30, 2024.

17 SEGMENT INFORMATION

Operating results of operating segments are reviewed by the Company's chief operating decision maker ("CODM") to make decisions about resources to be allocated to the segments and to assess their performance. Previously, operating segments were based on the jurisdictions of the Company's operations. To align with how the CODM reviews results and makes decisions about resources, Management updated the reportable operating segments to its four operating mines for the year ended December 31, 2024. The prior year has been adjusted to reflect the change in operating segments. The Company's general corporate administration costs are included within 'Corporate and other' to reconcile the reportable segments to the consolidated financial statements. Significant information relating to the Company's reporting operating segments is as follows:

18 COMMITMENTS

Capital commitments

The Company has certain capital commitments principally relating to the purchase or lease of property, plant and equipment at Macraes, Waihi and Haile, and the development of mining assets at Macraes, Waihi and Didipio.

The following table summarizes the capital commitments contracted for but not provided for as at June 30, 2025 and December 31, 2024:

	June 30 2025	December 31 2024
Purchase of property, plant and equipment	\$ 29.9	\$ 6.8
Development of mining assets	17.4	4.6
Leases not yet commenced	1.3	—
	\$ 48.6	\$ 11.4

19 RELATED PARTIES

There were no significant related party transactions during the period in addition to key management compensation which will be reported in our consolidated financial statements for the year ended December 31, 2025.

20 CONTINGENCIES

(a) A subsidiary of the Company is party to an addendum agreement with a syndicate of original claim owners, led by the late Mr. J. Gonzales Sr. (the "Gonzales Group"), in respect of a portion of the FTAAs area for the Didipio Mine (the "Addendum Agreement"), and such parties are involved in an arbitration proceeding with respect to the Addendum Agreement (the "Arbitration"). The Arbitration commenced in 2000 but is presently suspended due to the Liggayu dispute (discussed below) and the irrevocable resignation of the arbitrator.

In a complaint dated July 4, 2008 before the Philippines Regional Trial Court, a third-party, Mr. Liggayu, disputed the terms of the Addendum Agreement and the rights of the Gonzales Group to claim an interest in the Didipio Mine. Mr. Liggayu alleged that he is the true and beneficial owner and real-party-in-interest of the Didipio mining claims, and sought to enjoin the Company from making any payments to, or in dealing with, the Gonzales Group, and instead to recognize his rights.

In a decision dated March 11, 2025, the Regional Trial Court declared that Mr. Liggayu and the heirs of Mr. Gonzales Sr. are partners on a 50-50 basis, to all the rights, participation and interests, as claim owners of the Didipio mining claims in the name of Mr. Gonzales Sr., beginning January 2007 onwards. It further declared that the rights and entitlements of Mr. Liggayu cannot be directly enforced by him against OceanaGold in the existing agreements, specifically the FTAAs, which Mr. Liggayu can internally claim and enforce only against the heirs of Mr. Gonzales, and vice versa. On April 2, 2025, Mr. Liggayu moved for partial reconsideration of this decision, claiming that, among others, he is the true and lawful owner of the Didipio mining claims; if a partnership exists, it should be from 1985 and should cover all the subject mining claims and not just for Mr. Gonzales Sr's portion of the claim; and that his rights and entitlements should be directly enforceable by him against OceanaGold. Both the Gonzales Group and OceanaGold filed an opposition to Mr. Liggayu's partial motion for reconsideration.

The Company believes there is no near-term impact on its business or operations as the decision does not require payment of money by OceanaGold and the Arbitration proceeding is yet to be resolved.

As of June 30, 2025, the Liggayu dispute is still pending before the Regional Trial Court, and the Company has accrued \$74.8 million (\$65.3 million of royalties and \$9.5 million related to free-carried interest) pertaining to such claim.

(b) The Department of Environment and Natural Resources ("DENR"), along with a number of mining companies (including the Company), are parties to a case that began in 2008 whereby a group of NGOs and individuals challenged the constitutionality of the Philippine Mining Act (the "Mining Act"), the FTAAs and Mineral Production Sharing Agreements in the Supreme Court of the Philippines. The petitioners initiated the challenge despite the fact that the Supreme Court had upheld the constitutional validity of both the Mining Act and the FTAAs in an earlier landmark case in 2005. In early 2013, the Supreme Court requested the parties to participate in oral debates on the matter. The case is still pending with the Supreme Court for a decision.

Notes to the Condensed Interim Consolidated Financial Statements

For the Three and Six Months ended June 30, 2025 and 2024

(Expressed in millions of United States dollars, unless otherwise stated - unaudited)

Notwithstanding the fact that the Supreme Court has previously upheld the constitutionality of the Mining Act and FTAAAs, the Company is mindful that litigation is an inherently uncertain process and the outcome of the case may adversely affect the operation and financial position of the Company.

(c) The Company has contingent liabilities under certain contracts, guarantees and other agreements arising in the ordinary course of business on which no loss is anticipated. Bonds have been issued in favour of various New Zealand authorities (Minister for Land Information, Hauraki District Council, Waikato Regional Council and Department of Conservation) as a condition for the grant of water rights and/or resource consents, and rights of access for exploration and Martha mining that amount to \$44.0 million (December 31, 2024: \$40.3 million).

The Group has also issued bonds in favour of Otago Regional Council, Dunedin City Council, Waitaki District Council, West Coast Regional Council, Buller District Council and Department of Conservation in New Zealand as a condition for the grant of water rights and/or resource consents, and rights of access for the Macraes Gold Mine and the former Globe Progress Mine at the Reefton Restoration Project which amount to approximately \$43.4 million (December 31, 2024: \$39.8 million). Cash payments on bonds issued to New Zealand authorities would only be paid if the Company did not meet its obligations.

(d) The mine operating permit at Haile which became final and effective during the first quarter 2015 included a schedule for estimated financial assurance of \$65.0 million over the mine life consisting of \$55.0 million in surety bonds or other mechanisms and \$10.0 million in an interest-bearing cash trust. The Company's permit was modified and updated in December 2022 with the approval of the Company's Supplemental Environmental Impact Statement application and reclamation plan. The updated permit changed the total estimated financial assurance to \$123.4 million, adjusted annually for inflation, over the mine life consisting of \$103.4 million in surety bonds and a \$20.0 million interest-bearing cash trust. The Company has satisfied its current financial assurance payment requirements by using a surety bond of \$103.4 million and has paid \$9.6 million in trust funding by June 30, 2025.

The remaining estimated financial assurance of \$10.4 million will be paid over the life of the mine with estimated annual assurance payments of \$1.8 million to occur from 2025 to 2028, \$1.2 million in 2029, and \$1.0 million from 2030 to 2031. The timing and amounts of these payments could change due to a number of factors, including changes in regulatory requirements, changes in scope and timing of closure activities. The State of South Carolina in the United States of America requires financial assurance for the estimated costs of mine reclamation and closure, including groundwater quality protection programs.

The surety bond and other financial assurance must be maintained in force continuously throughout the life of the mining operation and may only be released, partially or in full, after the State of South Carolina approves its release.

(e) A subsidiary of the Company, along with the Philippines Office of the Executive Secretary, the DENR and its Mines and Environment Bureaus, as well as several Local Government Units, are parties to a case filed in April 2024 by an NGO group and two individuals (the "Petitioners"). The Petitioners questioned the approval of the renewal of the FTAA for alleged failure to conduct prior consultation, and made generalized allegations about violations of the Environmental Compliance Certificate and human rights.

Subsequent to the filing of the petition, the Regional Trial Court of Nueva Vizcaya denied the Petitioners' application for a Temporary Environmental Protection Order against OceanaGold. Further, in a resolution dated April 2, 2025, the Regional Trial Court dismissed most of the issues raised by the Petitioners but decided that the issue of whether the Company's subsidiary is currently engaged in open pit mining is a question of fact that should be decided at trial. Accordingly, a pre-trial is currently being scheduled to consider this issue.

Separately, the Petitioners have submitted a motion for the Court to reconsider its April resolution. All parties have been requested to respond to the motion prior to the Court making a decision.
